Wrap Up Discussion - Making An Impact!

Webinar

Live Staff Training  1 Hour
Family Caregivers & General Public  1 Hour

Program Description –
This would be a wrap up discussion allowing participants to share what positive changes they have made and seen take place the past few months. We will cover all areas pertaining to residents, families, and staff regarding patient centered care and abuse.

Objectives –
- Summarize learning tools, tips, and techniques
- Openly discuss the affects of this learning module and what’s ahead for patient centered care models, as well as individual care styles and societal care cultures.
- Highlight transformations occurring within some organizations
