Empowerment At Its Finest-
Creating A Fun Community Through Unity

Webinar

Live Staff Training    1 Hour
Family Caregivers & General Public    1 Hour

**Program Description**
This program is about creating joy in the work place. Find out how patient centered care impacts all involved and can help create a fun work environment. Increase productivity and deepen client relationships by accepting the fact that work can be fun.

**Objectives**
- Define what’s important to a resident, patient, or client.
- Explore what is normal from a resident or client perspective.
- Define what an activity is and why this is important.
- Learn what we remember and why
- Learn to accept “their normal” may not be “your normal.”
- Explore the “You make a difference!” belief.
- Examine the power of fun and how you control it!
- Learn how to create fun.
- Learn to use your power respectfully to create joy.
