Families Speak Honestly -
How Do They See Things... Take A Walk in Their Shoes

Radio

Live Staff Training  1 Hour
Family Caregivers & General Public  1 Hour

**Program Description –**
We will interview people caring for a loved one with dementia. We will discuss patient centered care what it is in their eyes as well as their fears about abuse and what they would consider abusive behavior. Participants will have the opportunity to ask questions and make comments.

**Objectives –**
- Learn what patient centered care means to families and what it is like to walk in the shoes as Caregiver
- We will discuss their fears about abuse and what they consider abuse.
- Explore what is important to them when securing a service for their loved one
- What makes them feel safe and comfortable as a Care Partner!
- Get a list of recommendations from Families who have placed someone in a residential community.
- Understand why and how man and women care differently
- Review generational caring styles and expectations.
