Preventing Abuse
Becoming A Hybrid Caregiver Can Help Avoid Abuse

Webinar

Live Staff Training  1 Hour
Family Caregivers & General Public  1 Hour

Program Description –
This program will introduce the concept of being a Hybrid Caregiver and how that can help avoid resident abuse. We will interview a professional to help us sort through abuse and just what is it? When does it occur? How can we avoid abuse and what we should do if we suspect it is happening?

Objectives –
- Define Abuse, Neglect, and Self Abuse
- Highlight the three typical types of Abuse (Family & Friends, Institutional, and Strangers)
- What is Hybrid Caregiver and why is it important in patient centered care
- Signs and symptoms of abuse
- Protocol
